Pune

13th Jan 2025 – 19th Jan 2025

About the college

Established in 2005 under the banner of the Kasturi Ram Research Centre for Science and Management, the Kasturi Ram College of Higher Education is an esteemed affiliate of the Guru Gobind Singh Indraprastha University, Delhi, and AICTE approved. Registered under the Society Registration Act XXI, 1860, the college has a mission to advance quality education and develop proficient professionals. Recognized for its high standards, it has earned an 'A' grade from the Joint Assessment Committee of GGSIPU and the State Fee Regulatory Committee of the Department of Higher Education, Government of NCT, Delhi. Moreover, the college boasts an ISO 9001:2015 certification, attesting to its commitment to quality. The courses run by college are BBA, BCA, B.Com (Hons.) and B.Ed.

About The FDP

The Faculty Development Program (FDP) titled “**Merging Digital Skills with Intellectual Pursuits**” is designed to equip educators and professionals with the latest tools, techniques, and knowledge in the digital and research domains. Over seven days, participants will delve into transformative topics, including the integration of Artificial Intelligence (AI), leveraging Microsoft 365 for productivity, and mastering data analysis. The sessions also cover vital research areas such as design, methodology, and referencing, providing a holistic approach to academic and professional development in the digital era. By focusing on innovation, collaboration, and practical application, this FDP aims to empower participants to excel in their teaching, research, and administrative roles. Through expert-led sessions and interactive workshops, the program seeks to bridge the gap between traditional methods and modern digital capabilities, ensuring participants are equipped to meet future challenges with confidence.

Who Should Attend

- Faculty members
- Researchers
- Academicians
- Professionals

Objectives of the FDP:

- To enhance participants' digital skills for professional excellence and productivity.
- To explore the potential of Artificial Intelligence in academic and administrative practices.
- To integrate Microsoft 365 tools effectively for collaboration and innovation.
- To build a strong foundation in research design, methodology, and data analysis.
- To foster a culture of continuous learning and adaptability in the digital age.
